
Antiquities Endowment Fund

SHORT TERM GRANT: Application Guidance

Created by an endowment from the United States Agency for International Development (USAID) ARCE's Antiquities Endowment Fund sustains an ongoing grants program to support the conservation, excavation, investigation, preservation and documentation of Egypt's cultural heritage and the dissemination of relevant knowledge.

The Antiquities Endowment Fund Short Term Grant (**for up to one year**) is awarded for highly focused professional projects that serve the conservation, excavation, preservation, documentation, and cultural heritage needs of Egyptian antiquities that are more than 100 years old. Projects must involve actual conservation, examination and technical study of artefacts, protection of sites, buildings or objects, participation of conservators, archaeologists, or other appropriate specialists in antiquities projects; training of conservation and archaeology students, excavation with conservation, or the production of publications, exhibitions, and presentations that disseminate knowledge about Egypt's cultural heritage.

AEF grants **only support direct project costs**. Indirect costs are not allowable. Please do not request indirect costs either in your proposal or in any resulting contract. The budget allows for highly specific expenses to be included. Applications should be denominated in U.S. Dollars. ARCE is not responsible for currency fluctuations.

I. Eligibility

Applicants from institutions of higher education, museums, free-lance researchers and public/private organizations of any country are welcome to apply. Applicants from the Ministry of Antiquities are permitted to apply but if awarded a grant, those individuals would need to take a leave of absence from their position at the Ministry for the duration of the grant. ARCE will require a copy of the leave approval from the Ministry of Antiquities before releasing any funds.

The Principal Investigator (PI) must be an individual member of ARCE at the time of application. If successful in receiving the award, the PI must maintain the membership for the duration of the project. Failure to maintain a current membership will result in a delay of funding disbursement.

Applicants are NOT eligible to apply if any of the following conditions apply:

- Applicant was awarded an AEF grant in a prior granting cycle and has not completed the project for which funds were received.
- Applicant was awarded an AEF grant in a prior granting cycle and has completed the project but has NOT submitted all the deliverables.
- Applicant is a current member of the ARCE Board of Governors.
- Applicant is a current member of the ARCE AEF Committee.

II. Application

The Antiquities Endowment Fund Committee is responsible for the review of all applications submitted and recommends funding to the Board of Governors. The management of the award is coordinated with ARCE's Cairo Center via aef@arce.org.

III. ARCE AEF 4 Funding Categories

Conservation, Excavation, Preservation, and Presentation

Project funds in this category are limited to \$100,000. The Antiquities Endowment Fund will support the conservation, excavation, and preservation of Egyptian sites, structures or objects dating from prehistory to 100 years ago. Excavation may not be conducted without accompanying conservation professionals and/or programs, as per agreement with the Ministry of Antiquities. Projects in this category might include protecting partial or entire sites, specific elements at a site, or site management activities; preservation, conservation and presentation of artifacts, works of art, monuments or parts of monuments, ancient manuscripts, books or other related material; photographic, digital or other documentation or cataloguing of sites, structures, or objects.

- All conservation, excavation and preservation grants must take place in Egypt.
- Funds are not intended for the purchase of equipment but may be used to purchase consumable supplies and for equipment rental.
- Funds may support the participation of conservation specialists in ARCE field projects. However, the PI must identify the conservator and provide sufficient documentation supporting his/her field experience. The PI must also obtain permission from the ARCE Executive Director prior to approval from the AEF Committee.

Training of Egyptian Personnel

Project funds in this category are limited to \$75,000. The excavation, conservation and preservation of Egypt's cultural heritage relies upon properly trained personnel. Funding in this category can be used for field schools, museum management, site management, on-the-job conservation training, etc.

- All training must take place in Egypt and be authorized by the appropriate Egyptian and/or other authorities.
- All personnel receiving training must be Egyptian nationals.
- The PI must demonstrate how the proposed training serves an identified need and/or addresses a gap in existing skills or knowledge.
- Maximum number of 15 participants per field school.

Student Training

Project funds in this category are limited to \$25,000. The Antiquities Endowment Fund seeks to increase the number of students in the U.S. and Egypt who are knowledgeable about Egypt and sensitive to its cultural heritage. Approved ARCE expeditions using advanced students may apply for endowment support for on-site student training. Allowable costs include transportation, per diem and local work crew costs for each student. Equipment purchases and honoraria are not permitted.

- The application must specify the number of students, the type of work they will do, and the specific training program.
- If granted an award, the PI must apply to the appropriate Egyptian and/or other authorities for clearance and permission for the student(s) to participate in the project.
- Students must be enrolled in an accredited American or Egyptian institution of higher education.
- Maximum number of 8 participants per field school.

Publication Subsidies

Project funds in this category are limited to \$30,000. The Antiquities Endowment Fund will support a) the publication of completed manuscripts, or b) the preparation of specialist materials for publication manuscripts (e.g. drawings/illustrations of relevant materials, appropriate specialist reports not supported by other funding sources). Priority will be given to those that are publishing projects that further the AEF mission of conservation, excavation, investigation, preservation and documentation of Egypt's cultural heritage and the dissemination of relevant knowledge.

- Festschrift and memorial publications are ineligible for this award.
- Funds will be disbursed only with documentation from an appropriate press indicating acceptance of the manuscript in its final form and the anticipated date of publication.
- ARCE reserved the right to negotiate the funding amount with the approved press.
- The PI, not the publisher, is responsible for informing ARCE of delays in publication.
- The author must acknowledge support from the Antiquities Endowment Fund in the publication and coordinate an agreed upon number of complimentary copies of the publication to be provided to ARCE.

Publication projects that provide for open access publication are encouraged.

IV. Application Submission

All applications must be prepared and submitted in English using the provided instructions (see below section on application format) via ARCE.org/grants/aef.

The application process for the ARCE AEF Short Term Grant takes place in 1 round (to be submitted by 12 midnight EST on February 15th, 2021) although submission of draft proposals are encouraged (by December 20,2020), to which program staff will respond with suggestions and advice.

After submission in both rounds, ARCE reserves the right to request supplementary information or pose clarifying questions. Requesting supplementary information or posing clarifying questions to one applicant does not obligate ARCE to do so with all applicants nor does it guarantee a grant award.

A. Application Submission Requirements:

The proposal and supporting information must use the format described. The proposal must be submitted via the written instruction on ARCE.org/grants/aef.

1. Project Narrative

The project narrative should be written in English and provide a thorough description of:

- The proposed activities, including an implementation timeline and set objectives. The project implementation timeline should be defined chronologically and must be accomplished in a single fiscal year between July 1-June 30. That does not mean 12 months of work divided over several years. Expeditions that have limited season durations must complete the AEF projects within 1 fiscal year from their start.
- The project's anticipated outputs, results and impacts.

- In the case of a conservation/preservation project, a condition report or condition assessment/survey of a group of objects, as well as a treatment proposal including details of conservation techniques and materials to be used. If applicable, a longer narrative defining methodologies should be provided, including details of methodology and legitimation of any chemicals used.
- The roles and responsibilities of the PI and other project-funded recipients. Describe the intellectual input, expertise, resources, etc. that each individual will contribute to the proposed project and how they will support particular outputs, outcomes and intended impacts.
- Any training that may be required for the project staff and the budgetary allocation and strategy necessary.
- A clear sustainability plan; how the intended outcomes will be sustained beyond the project timeframe.
- How the project is clearly differentiated from the ongoing work of the PI's mission, with distinctive personnel, activities and timing.
- Any risks associated with carrying out the project and the ways the PI will address them. These risks might include the well-being and/or security of the project staff, the technical and/or financial aspects of the project, organizational issues, the operating environment/s of the project and/or legal concerns.
- A minimum of 5 high quality digital images accompanied by captions that convey the nature and condition of the site or collection and show the urgency and/or need for the proposed project.

2. Additional Documents/Supporting Information

The below lists additional documents to be included during the application process.

- Project abstract (100-150 words).
- Confirmation of any previous or current grants received.
- Proposed estimated cost and cost breakdown.
These must include the following information:
 - A proposed budget and a summary budget narrative justifying the proposed expenses.
 - Salaries included in the project listed for each primary participant, including daily rate and maximum number of days anticipated. All rates should be listed in U.S. dollars.
 - The \$1000 administration fee is incurred by all successful applicants. Please include this fee in your budget; it will be deducted from the final 20 percent disbursement of the award.
- CV of the PI. (Please keep to maximum 2 pages)
- CV's of any project members who would be recipients of funds.
- Participants' salary history, indicating the respective compensation provided for previous project undertakings and the hours worked.
- Previous grants received by the PI for the last three years.
- Sources of additional funding.

V. Evaluation Criteria of Application

Each application will be assessed based on the criteria listed according to grant type.

For Conservation, Excavation, Preservation, and Presentation Projects

- The focus and objectives of the project and its relevance to cultural heritage conservation, preservation and presentation
- The proposed framework and budget for monitoring and evaluating the project
- Appropriate staffing and time commitments of each staff member
- The need/demand for the project and the need for funding
- The quality of the outcomes that the project will achieve
- Feasibility of the project
- Whether the project follows/demonstrates best practice
- The sustainability of the outcomes to be achieved

For Training of Egyptian Personnel

- The focus and objectives of the project and its relevance to training Egyptian personnel working in the field of cultural heritage
- The proposed framework and budget for monitoring and evaluating the project
- The need/demand for the project and the need for funding
- The quality of the outcomes that the project will achieve
- Feasibility of the project
- Whether the project follows/demonstrates best practice
- Whether the proposed level of training can be accomplished within the stated project duration.
- The sustainability of the outcomes to be achieved

For Student Training

- The focus and objectives of the project and its relevance to the training of students and the field of cultural heritage
- The proposed framework and budget for monitoring and evaluating the project
- The need/demand for the project and the need for funding
- The quality of the outcomes that the project will achieve
- Feasibility of the project
- Whether the project follows/demonstrates best practice
- The sustainability of the outcomes to be achieved

Publication Subsidies

- The project objectives and the expected final product and contents therein
- The proposed framework and budget for monitoring and evaluating the project
- The need/demand for the publication
- Feasibility of the project
- Written confirmation of the planned publishing date
- Demonstration of appropriate research methodology

VI. Receiving an AEF Grant

Should the applicant be awarded an AEF grant, then s/he will need to comply with all the terms and conditions of the Grant Agreement. The PI will sign this agreement and the ARCE Executive Director will countersign on behalf of ARCE. The PI and ARCE must sign the award contract within six months of award notification. Work must begin within the following 12 months (after contract signing). If work has not commenced in that time, the award will be canceled. If a year has passed since the award contract was signed and an extension of the start date is required – for reasons outside the control of the PI – the PI must request approval directly from the Executive Director, and the decision will be forwarded to the AEF Committee.

I. Required documentation for project start

- Proof of necessary permissions/clearances obtained from the relevant Egyptian authorities for projects conducted in whole/partially within Egypt.
- The PI must submit to ARCE copies of the project's clearance paperwork from the Ministry of Antiquities before signing the contract. A maximum of nine months is allowed from the time of notification of the award to submit the necessary approval of the Ministry of Antiquities' Permanent Committee and Security Clearances. Funds will not be disbursed until awardees submit copies of permission and/or clearances from the appropriate Egyptian authorities.
- Proof of partnership funding being secured (if applicable)
- An updated project cash flow
- A statement of your plans for procurement of goods, works and services and a recruitment strategy for any new positions
- Your bank account details
- A security management plan for your project (if requested by your Grant Administrator)
- Any other information which may be requested

2. Grant disbursement and financial reporting

All grant disbursements will be paid directly to the applicant organization in USD in line with the terms and conditions detailed in the Grant Agreement. Invoices or other approved documentary evidence will be required for all items purchased with grant money. All invoices and receipts relating to the project expenditure must be retained by the PI and will need to be submitted upon completion of the project for reconciliation and final disbursement.

Your grant will be paid in 2 disbursements according to the submitted budget and work plan and will be detailed in the Grant Agreement as per below:

- First disbursement (**Eighty Percent**) upon signing of award contract and submission of above previously mentioned approvals/permission.
- Second disbursement (**Twenty Percent**) upon completion and submission of the AEF project final deliverables.

The PI is solely responsible for submitting financial reports and technical reports to ARCE by the set deadline. Failure to do so, will preclude the final grant payment along with exclusion from further competition for ARCE-administered funds until such time as the report is completed.

3. Acknowledgement and Promotion

Successful applicants are expected to promote their grant award and project in coordination with the ARCE Communications Department. This may include, but is not limited to, the following:

- Submission of headshot and project abstract for marketing and communications use.
- Participating in press interviews, including digital, and print coverage.
- Giving a lecture about the project at the ARCE Cairo Center or online.
- Recognizing the AEF award and ARCE in all publicity of the project (REQUIRED).
- Including the ARCE logo on all print and digital output from the project, in accordance with ARCE branding guidelines (REQUIRED).
- ARCE's Communications Department may reach out and coordinate directly with a PI to produce video, written, or photographic content for ARCE's social media platforms, websites or other outlets.

ARCE will provide all PI's with the ARCE logo and branding guidelines, or they can be requested at aef@arce.org.

VII. Monitoring and Progress Updates

Internal monitoring and evaluation are required at regular intervals from the start of the project until its completion. This will ensure the effective management of unforeseen variables and promote transparency and communication between ARCE and the grantee. The following will apply:

- The PI is expected to submit progress reports according to an established timetable, dependent on the duration of the project, which will be detailed in the contract including submission deadlines.
- Any delay in submitting the required progress reports must be communicated to ARCE no less than 5 working days prior to the deadline, along with an alternate submission date and a justification for the extension.
- Any unauthorized delay in one or more progress reports, or a submission of a progress report that does not follow the requirements, will result in the delayed release of the final payment of the award and exclusion of the PI from consideration for future grants.

VIII. Deliverables

The PI is responsible for the timely delivery of documents during the project and upon its completion. This includes the following:

Financial Deliverables

- Financial reports (upon completion of project)
- Original receipts and invoices
- Copies of flight boarding passes
- Copies of pay slips

Marketing Deliverables

- Progress report accompanied by high resolution photographs (a minimum of 300dpi) capturing project progress with photo credit and captions.
- A final technical report upon completion of the grant.
- An article for publication on ARCE.org. This must include:
 - A 600 - 1,000 word article about their project that is written for a general audience. This should be submitted in a Microsoft Word document. ARCE retains the right to make editorial changes to the article in collaboration with the PI
 - 6-8 300dpi quality images with photo credits and captions included.
- An article for publication in *Scribe*. This must include:

- A 2,800 – 3,300 word “magazine style” article about the project. ARCE retains the right to make editorial changes to the article in collaboration with the PI.
- A minimum of 7 (seven) 300dpi quality images with photo credits and captions included. **The PI is responsible for coordinating with the ARCE Communications Department on an appropriate publication date.**
- Consistent photographic documentation of the project over the course of the year. Images must be a minimum of 300dpi each and transferred as separate files, not embedded in pdf or Word documents.
