# About ARCE

Founded in 1948, the American Research Center in Egypt (ARCE) is a private, nonprofit organization composed of educational and cultural institutions, professional scholars, and private individuals. ARCE's mission is to support research on all aspects of Egyptian history and culture, foster a broader knowledge about Egypt among the public, and strengthen American-Egyptian cultural ties.

ARCE has a broad global audience with 2,000+ active members worldwide, a 13,000+ mailing list, and 30,000+ followers globally on Facebook. Our podcast has nearly 10,000 cumulative listens, and Scribe, our biannual magazine, is circulated to over 1,200 subscribers. Our conservation sites in Egypt, such as Carter House and Khonsu Temple, are visited by millions of tourists from across the globe. A sponsorship with ARCE or exhibiting during the Annual Meeting provides unprecedented, niche visibility opportunities within a highly curated target market segment.

## About the ARCE Annual Meeting

Each year, ARCE hosts the preeminent Egyptological conference in the world. During this annual three-day meeting, scholars and expedition leaders present their research and discuss their latest project developments. The 2023 Annual Meeting will welcome hundreds of Egyptologists, members of Egyptian Ministries, archeologists, and researchers from across the globe to Minneapolis, MN on April 21-23, 2023.

In 2021, ARCE hosted the Annual Meeting virtually for the first time with record attendance, welcoming 750 registrants from 17 countries. We are continuing to offer our Virtual Annual Meeting in 2023 on May 20-22, 2023.
